

THE HIGHBURY

True to its elevated physical form, The Highbury marks a new era of expansion for Ellington Properties and higher perspectives for our residents. Instead of sprawling outwards, the development extends upwards, with a philosophy true to our values of design-led living. Planted on a podium of lush gardens and thoughtful family spaces, the development takes on the feel of a 'vertical village' where residents can become part of something bigger with a genuine sense of belonging.

The next step in family-focused living, in the Mohammed Bin Rashid City area, The Highbury promises to be an architectural pinnacle in this burgeoning location.

PROPERTIES

Concept

A gradual ascension in lifestyle

The Highbury begins a new chapter in Mohammed Bin Rashid City, an area fast becoming an extension of the sociable and all-embracing Downtown Dubai. The vision of the property takes a grand leap to a new level of individuality and aspiration by bringing together two contemporary buildings over 29 storeys set on a garden-strewn podium.

The two parts of the building are merged with a seamlessly interconnected plan, separated by their own visual character. Together they create contrasting shades and facade patterns of balanced proportions that frame living spaces to protect them from intense sunlight. The transition between the connected buildings is visually treated with a stepped facade that culminates in a gradual transcend from ground-level gardens to the upper-level apartments and roof terrace.

Lobby & Lounge

Flora, fauna and family

A tree is the focal point at the centre of The Highbury's breathtaking double-height atrium. Housed in a glazed display, reflects the intertwining of nature that is at the heart of the building's design.

Among lightly-oiled wood and a collection of plants, reclaimed finishes and materials reference local flora and fauna. And through the leaves, a monolithic floating reception counter welcomes residents and their guests with the warmth of a family home, inviting them to sit and relax among its calming surroundings.

At home in nature

Gardens

Designed to inspire joy among nature

The Highbury is home to expansive amenity-filled gardens. Set among thriving trees, herb gardens, sculptures and quiet seating areas, the space invites residents to explore the wealth of activities quite literally on their doorstep.

A family environment in every sense, there are opportunities for all ages to explore with a children's play area, a children's mini water park and a private outdoor cinema screen. Family pets are also well-catered for, in a separate area for exercise and play.

A family
environment
in every sense

An ecosystem of wellbeing

Surrounded by a 170m jogging loop, an elevated infinity pool with sunken seating and outdoor showers is the garden's social hub. Across the opposite side of the swimming pool, is a professional padel tennis court and a basketball area just beyond the private garden area.

Open outdoor sanctuaries

The Pavilion

The spiritual heart of The Highbury

The dual-level Pavilion is designed for leisure, work and wellbeing. It is a labyrinth of social and introspective pockets, housing games tables, acoustic coworking booths, jungle-themed play areas and the secluded Ellington Record lounge, a cosy hideaway with a high-end audio system, and low-slung furniture.

Accessible from the Lounge area, The Pavilion opens out to the infinity pool to become a natural extension of the Gardens.

in a design-led
way of living

Dedication to your wellbeing

The Pavilion's upper floor houses The Highbury indoor gym and yoga studio. A dedication to mental and physical wellbeing, the space features a fully equipped spa, as well as male and female saunas and steam rooms.

Actively refined

Upper Terrace

Exclusively open to residents of The Highbury's Duplex Apartments, the Upper Terrace boasts magnificent views looking directly across the city skyline and, perhaps its most iconic feature, The Burj Khalifa.

Interiors

A place where nurture meets nature

The interiors of The Highbury welcome you at every interaction. Its materials palette is curated to bring a sense of warmth and a unique, yet somehow familiar, ambience that makes you feel immediately home.

Inside, a natural colour palette with subtle glimmers of metal control light around the rooms, while the building's facade protects living spaces from the intensity of direct sunlight. Among natural wood and stone, and beautifully crafted furniture detailing, residents have the perfect backdrop to create a home that's uniquely theirs.

Apartments

A curated family haven

From stylish studios to spacious three-bed apartments, living at The Highbury exemplifies a level of detail true to our design-led philosophy. As well as direct access to thriving gardens, outdoor sports facilities, swimming pools and The Pavilion, each apartment looks out across Mohammed Bin Rashid City and beyond from tranquil private balconies.

Comfort by design

Kitchens at the Highbury, a perfect balance, striking a harmony of quality, desirability and usability. In line with Ellington's philosophy of living well by design, the kitchen becomes the heart of family life. The space and its suite of integrated appliances are centred around the signature island surface that becomes the focal point of dining, entertainment and working from home.

The Kitchen

A welcome retreat

The bedrooms at The Highbury bring revitalisation and sublime comfort. It is a space to curate your personal sanctuary from the outside world.

The Bedroom

The Bathroom

A sanctuary of calm

Among warm porcelain floors accentuated by a soft, off-white finger-tiled wall, the bathroom is a sanctuary of calm with ample storage space and a design that begins with functionality. The hand and rain shower contained in glass doors, as well as integrated sinks, create a beautiful spa-like feel to your home.

Experience
a new elevation

Upper-level Apartments

Higher perspectives

As the building gradually transcends to its highest levels, we reach The Highbury's Upper-level Apartments. Available in two-bed, three-bed plans and a one-of-a-kind four-bed plan, the development's most aspirational living spaces offer breathtaking views from expansive balconies toward the stunning Downtown skyline.

These elevated floors are accessible through a private entrance and allow residents to enjoy exclusive access to the Upper Terrace and its pristine infinity pool.

The heart
of the home

Sustainability

Future-proofing our properties for a kinder way of living

In addition to following Dubai Green Building regulations and Wellness Initiatives, we begin with floor plans that encourage natural lighting and use locally sourced materials and sustainable manufacturing processes wherever possible.

Our buildings are cooled and heated with low noise energy-efficient FCUs, with a system that collects condensation for irrigation. Our fitness centres are equipped with eco-conscious facilities. Our parking spaces accommodate charging points for electric vehicles. As our developments continue to expand across Dubai, our focus is on going above and beyond best practices to support environmentally friendly living with beautiful design.
